About This Game

Bored of playing over and over the same Tower-Defense games?

TD Ultimate is combination of Tower Defense with RPG and Shooter elements. From every genre we have taken the best parts, so player can come up with his own tactics and get through challenging waves with a favourite style!

If you like to make some mess, use manual main turret and shoot enemies with Minigun or Plasma Gun. If you want to improve some skills with leveling, buffing or special ammo, change mode and play as Crossbowman to shoot some enemies down. After all, don't forget to build new, upgradeable turrets. Every turret has it's characteristic properties. Some of them sets your enemies in fire and the other slows them down.

Build, improve, get new levels and fight with mythological creatures, knights, mages and other beasts to unlock all of 9 different maps!

Become a Champion in TD Ultimate!
